Subject: FOIA 453-12 about West Lake Landfill from MO Coalition for the Environment

The new FOIA about the Westlake Landfill attached below requests "any other FOIA requests regarding the West Lake Landfill CERCLA site submitted within the last five years". I have searched within FOIAXpress for these FOIAs using the terms "West Lake" and "Westlake" and have identified the following previous FOIAs that are responsive to FOIA 453-12:

195-08
267-08
98-10
119-10
169-12
311-12

I have attached the FOIA requests FYI. At this point, in my reading of FOIA 453-12, I believe that the requester is only asking for the "requests", not our responses.

10_SPECIFIC_INFORMATION_NEEDED_:• Chemical analysis of the "leached barium sulfate residues" said to be present in the West Lake Landfill CERCLA site by the 1988 NRC report "Radioactive Material in the West Lake Landfill", St. Louis County, Missouri. This should include concentrations of radionuclides, including, but not restricted to, thorium and radium, and other trace elements such as lead and thallium.
• The curation of any remaining physical samples that were originally part of the "8700 tons of barium sulfate residues"
• The curation of any remaining physical samples or cuttings of soil, rock, leachate, water, collected by McLaren/Hart, AEC, NRC, EPA, or any other entity from boreholes, the surface, wells, piezometers, or runoff from the West Lake Landfill CERCLA site.
• Any other FOIA requests regarding the West Lake Landfill CERCLA site submitted within the last five years.
11_FEE_:Up to \$25, Required
12_FEE_WAIVER:Yes
13_FeeWaiver_text:The Missouri Coalition for the Environment is a non-profit 501(c)(3) corporation. MCE routinely makes complex legal and factual information available to the public through our website, newsletter, and various other methods. MCE plans to disseminate any information found through this request to the public.

The information will contribute significantly to an understanding of the operations of the EPA by providing the public with the data the EPA uses to decide how to clean up West Lake Landfill.

This information will contribute significantly to the public understanding of the health hazards posed by the West Lake Landfill Superfund site. The information will help St. Louis public officials and citizens make informed decisions about how to engage with the EPA's cleanup efforts.

MCE has no commercial interest in this information.
